Experience

Junior Developer
Comerzzia: February 2018 - Present

- Software delopment, mainly Java web applications
- Spring MVC, Javascript, SQL, MongoDB, MyBatis, Jboss, JavaFX.

Activities

Event Organizer
ETSII Melee: February 2016 - Present

- Started a brand of tournaments that grew from a few entrants to over one hundred attendees from all over Europe. The project is now subsidized by the University of Seville.
- Gained considerable experience in management, leadership, PR, promotion and branding.
- I work with live streaming, audio and video capture and made my own system to manage larger crowds with less staff.

Basketball player
Various teams: 2008 - Present

- Developed a strong sense of discipline, teamwork and responsibility.
- Competing at a national level has given me high tolerance to stressful situations.
- I love challenges, and my desire for self-improvement has transferred to other areas of my life.

Hobbies

Fencing, Videogames, Music, Reading.
